# About Us

POCA Group was incorporated in 2007 and consist of three business entities. The first is POCA Technology or POCATECH which focus in end-to-end telecommunication services such as installation and commissioning, operator grade network optimization, and managed services. Currently POCATECH is operating on the entire Java Island, Bali and Nusa Tenggara, and on some part of Maluku and Papua. POCATECH clients includes the top equipment vendors and telco-operators.

The second is POCA-Aplikasi, which focus on IT software and hardware with emphasis on operator grade traffic-optimization, database security, telecommunication mission critical solutions and private LTE network solution. The latest addition to our product line up is worldwide vehicle smart tracking solution which proven to improve efficiency and security.

The last but not the least is POCA-Media, which focus on advertising placement on alternative and outdoor media, mobile advertising and brand activation. POCA Media has served many reputable and world-renowned brand from various industrial backgrounds. The latest addition to our product is interactive tablet placed in the most reputable taxi in Indonesia and online transportation.
